HOPEH EFFECTS GOVERNMENT REORGANIZATION;  
ADMINISTRATION COUNCIL NAMES HAINAN OFFICIALS

PERSONNEL REDUCED -- Tientsin Chin-pu Jih-pao, 5 Apr 50

Pao-ting, 4 April (Hsin-hua) -- During December 1949 and January 1950, the Hopeh provincial government carried out the inventory and reorganization plan set up by the Central People's government.

The purposes of the program are to reorganize the work of the government on the basis of its importance and urgency; eliminate supernumerary personnel; increase the number of cadres where needed; strengthen economic departments; and provide training for certain cadres. To this end, inventory and reorganization committees were set up in the provincial and special administrative district governments to provide coordinated leadership for the program. As an initial step, a thought-mobilization campaign was put on among the cadres to revise the thinking of some and to insure the smooth functioning of the plan.

Theoretically, government personnel in the province was reduced by approximately 25 percent from 114,238 to 73,568. However, since the cutback has not been completed, the actual reduction to date has been only 15,118.

In some areas and ranks cadres were strengthened by the addition of personnel.

The number of ch'u in the province has been reduced from 1,185 to 1,102 by combining some. Each ch'u now has an average of 45 villages with a population of 30,000.

There are still some die-hards and laggards in various areas whose attitude has slowed the reorganization to some extent.
